## Molecular Mechanisms Underlying Tumor Onset and Progression in Liver Cancers

Guest Editor:

**Dr. Cédric Coulouarn**

Inserm, Univ Rennes 1, OSS  
(Oncogenesis, Stress, Signaling)  
Laboratory, UMR\_S 1242, Centre  
de Lutte contre le Cancer Eugène  
Marquis, F-35042 Rennes, France

Deadline for manuscript  
submissions:

**closed (10 December 2022)**

### Message from the Guest Editor

This Special Issue specifically aims at providing a review of the literature as well as emerging experimental evidence of the molecular mechanisms underlying tumor onset and progression in HCC and CCA. The description of multifaceted regulation of gene expression in liver cancers, notably at genetic, epigenetic, transcriptional, and post-transcriptional levels, will be taken into consideration. The specific topic of this Special Issue includes the regulation of signaling pathways involved in liver carcinogenesis.

This Special Issue should serve as a forum for molecular and cellular biologists to share their experimental data and theories that can help better understand the molecular mechanisms contributing to liver tumor onset and progression and open new opportunities for innovative therapeutics.

## Editor-in-Chief

### **Prof. Dr. Samuel C. Mok**

Department of Gynecologic  
Oncology and Reproductive  
Medicine, The University of Texas  
MD Anderson Cancer Center,  
Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
