Deadline for manuscript  
submissions:

**closed (30 April 2023)**

### Message from the Guest Editors

Brain tumors are the most common solid tumors in children.

This special issue presents translational and clinical research articles and high-quality review papers focusing on the latest advances in the diagnosis and treatment of pediatric brain tumors. They are from the fields of neurosurgery, pediatric neuro-oncology, radiation oncology, neuroradiology, neuropathology, immunotherapy, and late effect study. We welcome articles describing innovative diagnostic methods (e.g. neuroimaging; liquid biopsy; molecular classification), novel therapeutic approaches, and the results of institutional or multi-center clinical trials of drug /radiation therapies. We also solicit advanced genomic and epigenomic analyses that contribute to sub-grouping and identifying molecular targets. Neurosurgical advances including minimally invasive surgery and regional therapy using convection-enhanced drug delivery, radiation therapy, and thermo-ablation are reviewed for the care of children with pediatric brain tumors.

We look forward to receiving your contributions.

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
