University, F-75015 Paris, France

Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editor

We are excited to announce a Special Issue in our journal *Cells* on the current applications and potential of human pluripotent stem cells.

We invite researchers to submit original articles, reviews, and commentaries that showcase their expertise and contribute to advancing the field. Topics of interest include (but are not limited to) medical applications of pluripotent stem cells in regenerative medicine, research on genetic diseases, toxicology and pharmacology applications, and advances in culturing and differentiating human pluripotent stem cells. We welcome submissions that demonstrate the potential of organoids and biomaterials for various applications.

We hope to receive high-quality submissions that inspire new directions in research and demonstrate the potential of pluripotent stem cells, organoids, and biomaterials for various applications. For any inquiries related to this Special Issue, please contact the Editorial Office.

## Editors-in-Chief

**Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

**Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
