## The Molecular and Cellular Basis for Parkinson's Disease 2019

Guest Editor:

**Prof. Dr. Thomas Müller**

Department of Neurology, St.  
Joseph Hospital Berlin-  
Weissensee, Berlin, Germany

Deadline for manuscript  
submissions:

**closed (31 January 2020)**

### Message from the Guest Editor

Dear Colleagues,

The focus on dopamine-sensitive motor symptoms, in association with improvement of motor complications in the heterogeneous disease entity of Parkinson's disease, leads to a certain standstill in research.

This Special Issue aims to provide new concepts and new ideas on the pathogenesis, genetics, and clinical maintenance of Parkinson's disease and related disorders. Not only new experimental findings, but also clinical outcomes, case series, and research on alternative, nonpharmacological therapies, will be considered.

The objective is to bridge the currently-increasing gap between experimental and clinical research on Parkinson's disease and related disorders.

Prof. Thomas Müller

## Editors-in-Chief

### **Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

### **Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
