Dr. Shinji Miwa

Department of Orthopaedic Surgery, Graduate School of Medical Sciences, Kanazawa University, 13-1 Takara-machi, Kanazawa 920-8641, Japan

Deadline for manuscript submissions:

5 April 2024

Message from the Guest Editors

Dear Colleagues,

The field of pediatric malignancy has undergone significant advances in knowledge and research in recent decades, resulting in new information about targeted therapies, immunotherapy, surgical techniques, and molecular profiling.

Despite this progress, there is still much work to be done. The ongoing dedication of researchers and clinicians in this field is critical to improving outcomes for pediatric malignancies.

We welcome reviews and original papers based on research in pediatric malignancies, including hematologic diseases, brain and central nervous system tumors, sarcoma/bone tumors, neuroblastoma, or other rare tumors.

We look forward to receiving your contributions.

Dr. Hisaki Aiba

Dr. Shinji Miwa
