

Selected Papers from the 10th International Conference on Tribology in Manufacturing Processes (ICTMP2024)

Guest Editors:

Dr. Miguel Angel Selles Canto

Institute of Materials Technology (IUTM), Universitat Politècnica de València (UPV), Plaza Ferrándiz y Carbonell 1, 03801 Alcoy, Spain

Prof. Dr. Samuel Sanchez Caballero

Institute of Design and Manufacturing (IDF), Universitat Politècnica de València (UPV), Plaza Ferrándiz y Carbonell 1, 03801 Alcoy, Spain

Deadline for manuscript submissions:

30 November 2024

Message from the Guest Editors

Dear colleagues,

We are pleased to invite you to the 10th International Conference on Tribology in Manufacturing Processes & Advanced Surface Engineering (ICTMP2024), which will be held from 26–28 June 2024, in Alcoy, Spain.

It will serve as the primary platform on which to present the latest tribological research, including the latest advancements in tribology in manufacturing processes and joining techniques, such as advanced lubricants and lubrication techniques, surface engineering and coatings, friction, wear, and contact mechanics. The conference topics related to coatings are as follows:

- Nanofluids and innovative lubricants;
- Tribological performance of advanced lubrication systems;
- Thin films and nanocoatings for wear and corrosion protection;
- Self-lubricating coatings and solid lubricants;
- Surface texturing and micro/nano-patterning;
- Tribochemistry and tribofilms;
- Surface fatigue and tribocorrosion

The papers presented will be published in the proceedings of the conference. In addition, a Coatings Special Issue dedicated to ICTMP2024 will be open to the submission of selected outstanding papers. We look forward to meeting you in Alcoy!

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New
Ceramics and Fine Processing,
School of Materials Science &
Engineering, Tsinghua University,
Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam
Mickiewicz University in Poznań,
ul. Wszechnicy Piastowskiej 3, 61-
614 Poznań, Poland

Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
