Deadline for manuscript  
submissions:

**closed (30 June 2021)**

### Message from the Guest Editor

Dear Colleagues,

Corrosion is a global issue and a challenge for a wide range of industrial sectors. Durable and active coatings are some of the most frequently used and effective methods for mitigating corrosion. We cordially invite you to submit your coatings research work to this Special Issue on “Coatings for Corrosion Mitigation”. With this Special Issue, we hope to present an array of cutting-edge coatings research for corrosion protection to a broad audience interested in conservation and sustainability.

In particular, the topics of interest include, but are not limited to:

- Organic and inorganic coatings for corrosion protection;
- Corrosion inhibitors;
- Smart coatings for corrosion protection (functional coatings and self-healing coatings);
- Electrochemical test methods for corrosion evaluation;
- Sol-gel coatings.

Dr. Niteen Jadhav

# Special Issue

## Editors-in-Chief

### Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing,  
School of Materials Science & Engineering, Tsinghua University,  
Beijing 100084, China

### Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań,  
ul. Wszechniczy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
