

## Electron-Beam Deposition and Modification of Functional Coatings

Guest Editor:

**Prof. Dr. Nikolay Koval**

Institute of High Current  
Electronics of Siberian Branch of  
the Russian Academy of  
Sciences, Tomsk 634055, Russia

Deadline for manuscript  
submissions:

**closed (31 October 2021)**

### Message from the Guest Editor

Dear colleagues,

We would like to invite you to submit your work to this Special Issue on “Electron-beam deposition and modification of functional coatings.”

In particular, the topics of interest include but are not limited to:

- Equipment for an electron-beam deposition and modification of material surface
- Processes of electron-beam deposition
- Electron-beam modification of material surface
- Properties of electron-beam coatings
- Complex electron-beam and ion-plasma engineering of material surface

This Special Issue is seeking original and review articles presented by the leading collectives and scientists of the world scientific community in the field of electron-beam equipment and technologies. We hope these papers will demonstrate some of the most significant works performed in recent years as well as trends in the development of this promising scientific and technological direction and its interaction with related areas.

Prof. Nikolay Koval

## Editors-in-Chief

### **Prof. Dr. Wei Pan**

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

### **Dr. Emerson Coy**

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
