# **Natural Based Bioactive Coatings**

Guest Editors:

#### Dr. Arantzazu Santamaria-Echart

Centro de Investigação de Montanha, Instituto Politecnico de Braganca, Braganca, Portugal

#### Prof. Dr. Filomena Barreiro

Centro de Investigação de Montanha (CIMO) and Laboratório para a Sustentabilidade e Tecnologia em Regiões de Montanha (SusTEC), Instituto Politécnico de Bragança, Campus de Santa Apolónia, 5300-253 Bragança, Portugal

Deadline for manuscript submissions: closed (31 December 2022)

### Message from the Guest Editors

This Special Issue aims to give an overview of the most recent trends in the field of bio-based bioactive coatings, aided by your expertise in the area. We welcome the contribution of your latest works covering topics from the modification of natural polymers, the incorporation of bioactive compounds, or green coatings preparation methods to their characterization and applicability evaluation in concrete applications.

In particular, the topics of interest include but are not limited to:

- Sustainable bio-based coatings;
- Coatings preparation through green chemistry strategies;
- Coatings processing methods;
- Coatings with added natural functional ingredients;
- Coatings with antimicrobial properties;
- Coatings holding bioactive/functional properties;
- Applications of bio-based coatings.

## **Editors-in-Chief**

#### Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

#### Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

### Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. Coatings is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers on the hottest topics.

# **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec,

CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
