Message from the Guest Editors

In a hyper-connected world, communication processes are increasingly multimodal and multicultural. Considering UNESCO's 2021 report entitled *Reimagining our future together*, all spaces, all times, and all forms of education are important to think about education towards 2050. This challenge implies conceiving education in a global and inclusive way, as sustainable ecosystems that connect natural, built, and virtual spaces of learning.

In this Special Issue, our goal is to bring together contributions from teachers, researchers, and experts in the fields of educational sciences, curriculum, and technologies, among others, on immersive virtual learning environments and other educational processes, and evaluations that occurred in different spaces and times, within diverse cultural contexts and digital technologies.

Editor-in-Chief

Prof. Dr. Paolo Bellavista

Department of Computer Science
& Engineering (DISI), University of
Bologna, 40136 Bologna, Italy

Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in *Computers* (ISSN 2073-431X). *Computers* is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. *Computers* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank: CiteScore - Q2 (*Computer Networks and Communications*)
