Message from the Guest Editors

Dear Colleagues,

This Special Issue is related to "The Sixth Annual Conference of Chinese Crystallographic Society", which will be held in Guang Zhou, China from 19–22 December, 2016.

This Special Issue seeks updated and new knowledge on the area of crystallography, the topics may include, but are not limited to:

- Macromolecule crystallography
- Functional molecular crystal
- Polycrystal (powder) diffraction
- Nonlinear optics crystals and laser crystalline materials
- Electronic crystallography
- Pharmaceutical crystallography
- Extreme conditions on crystalline materials, etc.

Participants of the conference are cordially invited to contribute original research papers or reviews to this Special Issue of *Crystals*.

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.
