Message from the Guest Editors

Dear Colleagues,

To celebrate the successful launch of the journal *Dermato*, we are devoting this Special Issue to publishing a selection of review papers contributed by Editorial Board Members (EBMs) and authors invited by the Editorial Office. The Special Issue will highlight a diverse set of topics related to skin research, including broad aspects of dermatology, skin biology, skin development and aging, regenerative medicine, and stem cell research related to skin, plastic, reconstructive, and aesthetic surgery, etc.

We are welcoming experts from all over the world to contribute to this Special Issue.
