Message from the Guest Editors

Dear Colleagues,

The Special Issue ‘Advances in Prostate Cancer Diagnosis and Treatment’ addresses important advances in the diagnostics of prostate cancer and its current standard treatments. In particular, authors are welcome to submit manuscripts regarding prostate cancer diagnostics with new radiographic technologies such as PSMA-PET/CT or advances in staging modalities. Moreover, the Special Issue aims to address important improvements in treatment modalities of localized, advanced, oligo-metastatic or castration-resistant prostate cancer.
