Radiomics and Machine Learning Models for Oncological Clinical Applications

Guest Editor:

Dr. Francesco Verde

Department of Advanced
Biomedical Sciences, University
of Naples “Federico II”, Naples,
Italy

Message from the Guest Editor

This Special Issue aims to present novel applications of ML and radiomics in diagnostic oncological imaging, covering insights from optimising the clinical-radiological workflow (patient screening, image acquisition) to the more specific image-based tasks (cancer detection, characterisation, and treatment monitoring).

Deadline for manuscript
submissions:

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical
Physiology, Nuclear Medicine &
PET National University Hospital,
Rigshospitalet, University of
Copenhagen, Blegdamsvej 9, DK-
2100 Copenhagen, Denmark

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
