Deadline for manuscript
submissions:

closed (30 April 2019)

Message from the Guest Editor

Dear Colleagues,

Neuro-psychiatric disorders are an important cause of poor quality of life, disability, and premature mortality. The pathophysiological bases of these disorders show continuous challenges, and different aspects within the same disorder appear quickly in the field of biomedical sciences. The complexity of these disorders needs the expertise of a multidisciplinary team to provide the best healthcare for these patients.

This Special Issue wishes to shed new light on this exciting and insightful field of research from a multidisciplinary perspective, and reflects the interplay between neurological and psychiatric sciences, with other health sciences at the leading edge of this growing research field, which intensively suggest new opportunities for improving diagnosis and care, or to prevent adverse outcomes. In the Special Issue, the readership will find relevant research carried out by several health care professionals and researchers with extensive knowledge on clinical settings and is intended to address new issues of interest of specific importance to research and clinical practice. Welcome to contribute free of charge.

Message from the Editor-in-Chief

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2023).
