closed (30 August 2022)

Message from the Guest Editors

The first "Annual Seminar on Marine Science and Aquaculture" commenced in 2003, organized by Universiti Malaysia Sabah at Kota Kinabalu. It provided a platform to exchange knowledge about the marine ecosystems and development of aquatic food resources through sustainable fisheries and aquaculture. From 2014, this annual event was rebranded and is now known as the "International Conference on Marine Science and Aquaculture (ICOMSA)". The theme for current ICOMSA 2022 is "The Ocean We Want Towards Sustainable Development". This topic is of global relevance and is particularly important, where marine ecosystem services play a significant role in socio-economic development, aquaculture industry and seafood security. The conference program is structured to include papers dealing with overcoming the challenges through innovative solutions.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
