Naturales, Departamento de  
Biodiversidad y Biología  
Experimental, Universidad de  
Buenos Aires, Buenos Aires,  
Argentina

Deadline for manuscript  
submissions:

**closed (20 October 2023)**

### Message from the Guest Editors

Dear Colleagues,

For this Special Issue, we welcome contributions that will help deepen our knowledge and understanding of isopod crustacean biodiversity. In addition to taxonomic examination of isopods, as the cornerstone of any biological research, we welcome further phylogenetic work elucidating their origins in the deep sea up and the analysis of biodiversity patterns aiming to achieve a more comprehensive picture of the general drivers of deep-sea benthic biodiversity. Descriptions and new evidence of the distribution of individual species will only be considered if they are placed in a broader context and thus contribute significantly to the understanding of the biogeography and diversity of the deep sea. We are particularly interested in new approaches and methodologies that advance diversity research in this taxon, and look forward to receiving studies from poorly known regions and habitats that help to fill biogeographical gaps.

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
