Deadline for manuscript  
submissions:

**30 September 2024**

### Message from the Guest Editors

This Special Issue welcomes the submission of manuscripts that report results of original research addressing problems related to biological invasions, such as the assessment of their impacts on the native biodiversity and the management of alien species in terrestrial, marine, and freshwater ecosystems.

Subject areas include but are not limited to:

- Conservation of native biodiversity;
- Management and risk assessment of IAS;
- Environmental DNA and molecular tools for monitoring IAS;
- Population dynamics of invasive species;
- Perception of alien species and citizen science;
- Impacts on ecosystems services;
- Economic cost of invasive species;
- Rewilding activities in degraded ecosystems;
- Habitat restoration;
- Vectors of introduction of IAS;
- Toxic molecules from IAS;
- Molecular-related invasiveness.

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
