Ecology, Diversity and Evolution of Aquatic Macroinvertebrates

Guest Editor:

Dr. Ana Savić

Department of Biology and
Ecology, Faculty of Sciences and
Mathematics, University of Niš,
Niš 18000, Serbia

Deadline for manuscript
submissions:

closed (28 February 2023)

Message from the Guest Editor

This Special Issue will be dedicated to aquatic macroinvertebrates. It will cover a wide range of topics, from those related to improving sampling methods to those dealing with predicting the future or reconstructing the past of the ecosystems, as well as papers that include field-based assessment but also experimental studies in laboratory environment. Species that are stenoendemic as well as those with wide distribution will be equally included—the former due to the interesting topic of endemism, and the latter due to the issue of adaptations that enable such wide distribution. Papers that lean toward classics (for example, macroinvertebrate species biodiversity assessment based on morpho-taxonomy) as well as more modern approaches (standard DNA-based biodiversity identification tools such as DNA barcoding coupled with high-throughput next-generation sequencing (NGS) technologies) will all be welcome.

- macroinvertebrates
- aquatic ecosystem
- monitoring, management and restoration
- macroinvertebrate ecology
- macroinvertebrate diversity
- macroinvertebrate evolution
- macroinvertebrate taxonomy
- endangered species
- invasive species
- water quality

Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
