Mycorrhizal Fungal Diversity

Guest Editors:

Dr. Samuele Voyron

Department of Life Sciences and Systems Biology, University of Torino (Italy), Viale Mattioli 25, 10125 Torino, Italy

Dr. Erica Lumini

Institute for Sustainable Plant Protection (IPSP), Italian National Research Council (CNR), Viale Mattioli 25, 10125 Torino, Italy

Message from the Guest Editors

The purpose of this Special Issue is to focus on mycorrhizal fungi biodiversity in different environments, both natural and anthropic, in order to depict the driving forces that shape the mycorrhizal component of the total fungal soil community.

Papers that describe single case studies, technical advances, as well as perspective views in order to depict mycorrhizal biodiversity are most welcome.

Deadline for manuscript submissions:

closed (30 November 2021)

Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
