Message from the Guest Editor

The coronavirus pandemic has required all organizations to examine how they will function in the years to come. Private corporations are dealing with major issues, such as remote work, changing markets and customers in the era of Amazon.com, and costs. The same is true in higher education, as institutions of learning migrate to online technology to support instruction, academic services, and administrative efficiency. Even before the onset of the pandemic in 2020, higher education had been evolving to a more online environment, with some predicting significant upheaval, while others suggested a more deliberately careful approach to technology.

In this Special Issue, original research articles and reviews are welcome. The Editors seek to provide a forum for academic leaders and researchers around the globe to consider whether online technology can serve as a vehicle of hope for higher education to improve instruction, to make college more affordable, to mitigate the increasing costs, and to ensure marginalized populations can access education.

I look forward to receiving your contributions.

Manuscript deadline: 1 October 2023

Abstracts deadline: 28 February 2023

an Open Access Journal by MDPI

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PsycInfo, and other databases.

Journal Rank: CiteScore - Q1 (*Education*)
