Advances on Analog-to-Digital and Digital-to-Analog Converters

Guest Editors:

Prof. Dr. Kamal El-Sankary
Electrical & Computer
Engineering Department,
Dalhousie University, C367,
Halifax, NS, Canada

Dr. Karama M. AL-Tamimi
Research Associate at Mixed-
Signal Laboratory, Dalhousie
University, Halifax, NS, Canada

Deadline for manuscript
submissions:
closed (31 March 2022)

Message from the Guest Editors

Driven by silicon foundries' scaling efforts to enable massive distribution of integrated systems with sensing, communication and power management capabilities (i.e., the Internet-of-Things (IoTs) sensing nodes), data converters have received special attention among the most critical integrated circuit blocks owing to their link between the real-world analog environment and digital processing units.

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
