

Information and Communications Technologies (ICT) to Deal with COVID-19

Guest Editors:

Prof. Dr. Enrique Hernández-Orallo

Department of Computer Engineering (DISCA), Universitat Politècnica de València, 46022 Valencia, Spain

Dr. José M. Cecilia

Department of Computer Engineering (DISCA), Universitat Politècnica de València, 46022 Valencia, Spain

Deadline for manuscript submissions:
closed (31 July 2022)

Message from the Guest Editors

This Special Issue encourages submissions from academia, industry, and governments to share the application of ICTs to combat COVID-19, during the various stages of this pandemic, namely: early diagnosis, contact tracing, evolution, prevention of spread, isolation measures, etc.

- Contact tracing Apps including the related privacy issues
- Internet of Things (IoT) and wearable systems for the control and monitoring of patients
- Data science and network analytics applied to COVID-19
- Social sensing for analyzing and managing COVID-19
- Machine learning techniques for the prediction of COVID-19 evolution
- Analytical and simulation models for evaluating and studying COVID-19
- AI-based methods for COVID-19 diagnostic systems
- Novel ICT methods for predicting the long-term risk of COVID-19
- Novel predictive modeling for viruses in the era of post-COVID-19
- Novel ICT recommendation systems for the treatment of COVID-19 patients

an Open Access Journal by MDPI

Editor-in-Chief

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
