Message from the Guest Editors

Nowadays, intelligent systems are present everywhere. Powerful machines and existing communications allow our lives to be directed in many ways by these systems. This ranges from machines to intelligent software agents with the ability to learn, plan, and solve complex problems.

The main purpose of this Special Issue is to attract high-quality articles detailing recent research as well as review articles on recent developments in intelligent systems. Topics relevant to this Special Issue may include (but are not limited to):

- Distributed intelligent systems
- Image processing
- Organizational systems
- Expert systems
- IoT
- Swarm systems
- Intelligent virtual educational systems

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
