Deadline for manuscript
submissions:

20 November 2024

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue of *Electronics* is to present state-of-the-art investigations into various advanced mobile networked systems for future applications. We invite researchers to contribute original and unique articles, as well as sophisticated review articles. The topics include, but are not limited to, the following areas:

1. Machine learning and deep learning-based smart city;
2. Applications in smart IoT and wireless sensor networks;
3. Applications in industrial automation with mobile networks;
4. Networked robot systems;
5. Wireless communication and control in robotics;
6. Networked sensor systems for robotics;
7. Artificial intelligence and machine learning in networked robotics;
8. Human–robot interaction and collaboration in networked environments;
9. Biomedical and health monitoring with networked systems;
10. Privacy-enhanced machine learning and deep learning for mobile networked systems.

an Open Access Journal by MDPI

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
