

## Internet of Things, and Data Analytics for Smart City Applications

Guest Editors:

**Dr. Mahima Agumbe Suresh**

Department of Computer  
Engineering, San Jose State  
University, San Jose, CA 95192,  
USA

**Dr. Sanmukh Kuppannagari**

Department of Computer and  
Data Sciences, Case Western  
Reserve University, Cleveland, OH  
44106, USA

Deadline for manuscript  
submissions:

**closed (15 September 2023)**

### Message from the Guest Editors

Smart cities, equipped with the Internet of Things, present a huge opportunity to make the world a better and safer place. As the software and hardware capabilities of devices continue to improve, we are seeing an unprecedented number of devices with varying computation and communication capabilities connecting with each other on the Internet. These devices generate a massive amount of data and perform computations to solve complex problems.

The advent of new technology has brought about new challenges in scalability, privacy, and security. Additionally, it has also supported the growth of alternative computational paradigms such as edge computing, communication standards such as 5G technology, and impactful applications that use the technology. We invite high-quality submissions to the Special Issue on topics including, but not limited to:

- Technology and applications for smart cities
- Cloud and edge computing for IoT
- Cloud/edge computing-enabled big data analytics for IoT
- Distributed Systems for IoT Data Analytics
- Data Quality Metrics for IoT Applications
- IoT Applications for Smart Cities
- Privacy, Security and Trust Issues in Smart City and IoT Applications

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
