Dr. Peristera Baziana

Department of Computer Science
and Telecommunications,
University of Thessaly, 35131
Lamia, Greece

Message from the Guest Editors

This Special Issue will mainly focus on research works on Topology Control and Optimization issues for WSN, IoT, and Fog networks for several application domains such as smart health, smart grid, precision agriculture, and Industry 4.0. Wireless communication networking is essential for our daily activities, but they have become more complex. This Special Issue will highlight state-of-the-art algorithms, optimization techniques, and architectures for next-generation smart wireless networking devices, embedded devices, and pervasive computing.

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
