Development, National Chengchi  
University, Taipei 11605, Taiwan

Deadline for manuscript  
submissions:

**15 August 2024**

### Message from the Guest Editors

Dear Colleagues,

Multimedia systems are now widely used in various fields; accordingly, the importance of security and privacy is increasing. It is necessary to develop and apply effective and reliable technologies and methods with which to respond to various threats and attacks that may occur during the creation, transmission, storage, processing, and sharing of multimedia data.

To this end, various efforts are being made to advance technology. We invite researchers working in relevant areas to submit their latest manuscripts which either design new technologies or apply technologies in different multimedia technologies and security areas.

Topics of interest include, but are not limited to, the following:

- Technologies such as encryption, decryption, authentication, and integrity checking of multimedia data;
- Technologies such as anonymization, pseudonymization, and de-identification of multimedia data;
- Technologies such as steganography of multimedia data, digital watermarking and digital rights management;
- Proposals for new models, frameworks and architectures for multimedia data security and privacy.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
