**Dr. Weixin Si**

Shenzhen Institute of Advanced Technology, Chinese Academy of Sciences, Shenzhen 518055, China

Deadline for manuscript submissions:

**closed (15 February 2024)**

### Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we welcome manuscripts on the design of specialized acceleration algorithms for concrete research directions to enable task-specific applications. In addition, we also welcome all emerging research efforts, new solutions to existing problems, and even new problems. Research areas may include (but are not limited to) the following:

- Three-dimensional computer vision;
- Applications of computer vision and vision for X;
- Biomedical image analysis;
- Computational photography, sensing, and display;
- Deep learning for computer vision;
- Document image analysis;
- Faces and gestures; Poses and actions;
- Generative models for computer vision;
- Low-level vision and image processing;
- Motion and tracking;
- Physics-based vision and shape from X;
- Recognition, including feature detection, indexing, matching, and shape representation;
- RGBD and depth image processing;
- Scene analysis and understanding;
- Robot vision; Segmentation and grouping;
- Video analysis and event recognition;
- Video processing and communication;
- Efficient training and inference methods for networks.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
