Message from the Guest Editors

In this Special Issue, potential topics include but are not limited to the following:

- Identification and modelling of renewable energy-sources and systems using artificial intelligence techniques.
- Design of intelligent controllers for renewable energy systems.
- Intelligent forecasting models for renewable resources.
- Intelligent control and management of renewable smart grids.
- Intelligent control and management of buildings with renewable energy systems.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science),

CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2(Electrical and Electronic Engineering) CiteScore - Q2 (Electrical
