submissions:

closed (31 May 2021)

Message from the Guest Editors

This Special Issue offers a fascinating opportunity to expose and deliberate on the newest advances and real-world applications in modeling, optimization, and control where intelligent systems are used.

The aim of this Special Issue is to promote advancement in, but not limited to, the following topics:

- Fault detection and diagnosis;
- Traditional system upgrading;
- Improvement or new intelligent control techniques and topologies;
- Complex system modeling;
- Optimization of processes and procedures;
- Intelligent system applications over industrial processes;
- Systems efficiency improvement and optimization;
- Intelligent system applications;
- Intelligent control applications;
- Biomedical applications;
- Smart grids and microgrid applications;
- Mobility and electromobility applications;
- Electronics and power electronics applications;
- Internet of Things.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
