Message from the Guest Editors

This Special Issue will pay attention to all those research approaches focused on the relationship between evolution in the area of transport with a high incidence in the environment from the perspective of efficiency, which has become one of the neuralgic centers of sustainability. It is about producing, consuming, and moving people and goods better, with fewer resources and less environmental impact.

Topics of interest for this issue include but are not limited to:

Public transport; Traffic management; Smart cities; Location-based systems; Expert systems; Routing algorithms; Recommender systems; Path planning and path finding; Users' profile analysis; Distributed systems and platforms; Smart city modeling and simulation; Smart mobility and transportation; Intelligent vehicles; Smart traffic system operations; Smart integrated grids; Intelligent infrastructure; Sensors and actuators; Data visualization; Cybersecurity; Blockchain.

Welcome to contribute!

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
