Selected Papers from the 5th Polish Mining Congress

Guest Editors:

Dr. Marcin Lutynski

Dr. Grzegorz Strozik

Dr. Grzegorz Pach

Dr. Łukasz Bartela

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editors

The mining industry is still playing a significant role in supplying resources needed for the modern post-industrial society, such as critical raw materials. Recent problems with supply chains have focused attention on the security of raw materials and increased extraction of resources from European deposits. The 5th Polish Mining Congress is the most important forum for meetings between representatives of science and industry in the broadly understood area of mining.

The congress will be held under the slogan:

Mining industry of the 21st century—how to extract and process mineral and energy resources while protecting the climate and the environment?

Submissions are invited from authors presenting at the 5th Polish Mining Congress. Authors are encouraged to submit their work for this Special Issue.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
