

## Energy Planning from the Perspective of Sustainability

Guest Editors:

**Dr. Michail Tsangas**

Laboratory of Chemical Engineering and Engineering Sustainability, Faculty of Pure and Applied Sciences, Open University of Cyprus, Giannou Kranidioti 89, Latsia, Nicosia 2231, Cyprus

**Dr. Antonis A. Zorpas**

Laboratory of Chemical Engineering and Engineering Sustainability, Faculty of Pure and Applied Sciences, Open University of Cyprus, Giannou Kranidioti 89, Latsia, Nicosia 2231, Cyprus

Deadline for manuscript submissions:

**30 September 2024**

### Message from the Guest Editors

This Special Issue aims to elaborate, present and communicate the most recent advances and future trends of energy planning within the framework of sustainable development and energy sustainability.

Topics of interest for publication include, but are not limited to:

- Novel methods and tools for sustainable energy planning and energy strategic planning;
- Novel methods, tools and indicators for evaluation of energy sustainability;
- Energy planning in the framework of the SDGs: requirements, monitoring and measurements;
- Energy planning and energy strategic planning in crisis circumstances;
- Novel approaches and tools for energy planning impact assessments including carbon footprint calculations and mitigations methods;
- Methods and tools to forecast energy needs and planning to satisfy them;
- Emerging issues around energy availability and sustainability;
- Energy strategies, energy policies, energy planning and energy sustainability in connection with a circular economy;
- Evaluation of energy planning strategies, policies and legislation;
- Energy strategies and policies in connection with a new green deal;
- Projections for use of energy sources and an energy mix.

## Editor-in-Chief

### Prof. Dr. Enrico Sciubba

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
