University of Corsica, UMR CNRS  
6134, 20000 Ajaccio, France

**Prof. Dr. Christian Cristofari**

Laboratory of Environmental  
Sciences SPE - UMR 6134,  
University of Corsica Pascal Paoli,  
22 Avenue Jean Nicoli, 20250  
Corte, France

Deadline for manuscript  
submissions:

**closed (10 May 2024)**

### Message from the Guest Editors

Dear Colleagues,

Nowadays, microgrids appear as a valuable option to provide a reliable electricity supply. Due to their ability to operate in grid-connected mode or islanded mode, they can improve the flexibility of the power grid while increasing the security of supply for consumers.

This Special Issue aims to present and disseminate the most recent developments that contribute to improve the management of microgrids and their interaction with the electrical grid.

Topics of interest for this Special Issue include but are not limited to:

- Integration of renewable energy sources
- Energy storage systems for microgrids
- Microgrid optimal sizing
- Energy management strategies
- Energy supply reliability
- Production forecasting applied to energy management
- Load forecasting and scheduling

Dr. Ghjuvan Antone Faggianelli

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
