### Message from the Guest Editors

The journal *Energies* is pleased to invite you to submit research and/or review papers to a Special Issue on “Energy, Environment and Sustainable Development”. This special issue aims to tackle the key global and societal challenges of ensuring the provision of energy and protecting our environment for the future. Specifically, the Special Issue is expected to present new research findings as well as reviews of significant work in the field of energy storage and solid waste recycling. Potential topics include but are not limited to:

- solar energy;
- solar thermal;
- phase change materials;
- thermal energy storage;
- electrochemical energy storage;
- energy saving technology;
- solid waste recycling;
- soil remediation;
- microbial remediation;
- environmental remediation;
- sustainability.

We look forward to your contribution in this Special Issue.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
