Advances in Photovoltaic Solar Energy II

Guest Editors:

Dr. Alessandro Ciocia

Department of Energy,
Politecnico di Torino, 10129
Torino, Italy

Dr. Antonio D'angola

SI-UniBas School of Engineering,
University of Basilicata, via
dell'Ateneo Lucano, 10, 85100
Potenza, Italy

Deadline for manuscript
submissions:

29 October 2024

Message from the Guest Editors

This is the 2nd edition of "Advances in Photovoltaic Solar Energy" we collaborate in *Energies*. We welcome submissions on the following topics, as well as other potential topics that are not mentioned here:

- Innovative design of PV components and systems (e.g., new maximum power point tracking logics);
- Techniques for automatic fault detection (e.g., thermography and electroluminescence by drones, automatic scan of current–voltage curves);
- Smart monitoring and maintenance of utility scale PV plants;
- Techniques to increase local self-sufficiency and self-consumption by PV systems;
- Methods to support the integration of a significant share of PV generation into the power grids (e.g., coupling with storage systems, active power curtailment, reactive power injection, remote/centralized control, grid reconfigurations);
- Planning of utility scale PV generation at regional and national levels;
- Forecasting of PV generation.
- Modelling and simulation of photovoltaic energy conversion systems
- Electrical and thermal modeling of a PV cell and of a module
- Modelling, control, and simulation of integrated storage systems in photovoltaic plants.

Special Issue

energies

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
