Department of Industrial Economics, School of Economics and Finance, Xi'an Jiaotong University, Xi'an 710061, China

## Message from the Collection Editor

The Guest Editor is inviting submissions to a Special Issue of *Energies* on the subject area of "Energy Economics and Policy in China". China is the largest energy consumption country and carbon emitter in the world. In order to cope with global warming and to strengthen energy security, China is making unremitting efforts to promote the energy revolution and reduce greenhouse gas emissions. In this practice, a large number of theoretic questions relating to energy economics and energy policy urgently need to be answered.

This Special Issue will deal with energy economics and policy in China. Topics of interest for publication include but are not limited to: energy revolution, energy transition, energy markets, energy efficiency, energy security, sustainable energy, renewable energy, clean energy, decarbonisation, carbon capture and storage, carbon emission reduction, carbon emission peak, and carbon neutrality.

## **Message from the Editor-in-Chief**

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
