### Message from the Guest Editors

This Special Issue aims to present a collection of original research papers and review articles describing solutions for the emerging low-energy building industry, improving environmental quality and sustainable waste management. Topics of particular interest for this Special Issue include, but are not limited to:

- Sustainable buildings;
- Green energy;
- Renewable energy in buildings;
- Materials for sustainable buildings;
- Sustainability;
- Sustainable development;
- Environmental protection;
- Sustainable utilization of wastes;
- Indoor air quality;
- Waste recycling;
- Air, soil and water pollution and methods for limiting pollution.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
