### Message from the Guest Editors

This Special Issue aims to group all the possibilities for using ICT in Smart Cities Development Management. These include, in particular but not exclusively:

- ICT in in the development management of selected areas of smart cities eg: smart economy, smart mobility, smart governance, smart environment, smart people and smart living.
- Energy and transport efficiency of the Smart Cities,
- Smart Grid,
- Integration of the Smart City's information infrastructure,
- Disruptive Technologies in Smart Cities development management,
- Sustainable development of Smart Cities,
- Digital innovation at Cities
- Smart Cities and Artificial Intelligence

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
