

an Open Access Journal by MDPI

Advances in Solar Systems and Energy Efficiency

Guest Editors:

Prof. Dr. Maciej Zajkowski

Prof. Dr. Adam Idzkowski

Dr. Zbigniew Sołjan

Dr. Stanislav Darula

Deadline for manuscript submissions:

19 June 2024

Message from the Guest Editors

The purpose of this Special Issue is to collate a series of scientific articles on various aspects of solar energy technology and energy efficiency, including current research on various photovoltaic and thermal technologies, solar concentrators, solar transport, solar heating, ventilation and air conditioning (HVAC) and solar building technology. This scientific area also includes research on the application of such solutions, research on manufacturing systems, design of solar systems and energy efficiency, modelling and simulation, performance, life cycle assessment and optimization. We invite both original research and review articles.

- solar energy
- energy efficiency
- solar systems
- photovoltaic
- thermal energy
- solar concentrators
- daylighting
- smart grids
- power energy
- materials for solar systems
- etc.

an Open Access Journal by MDPI

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
