Message from the Guest Editors

This Special Issue seeks original high-quality papers that provide policy-makers and researchers all around the world with ideas on how to develop prosperous societies and cost-effective firms for a new era of energy transition in accordance with the best interests of humanity.

Specific topics of interest to this Special Issue include but are not restricted to the following:

- Environmental modeling incorporating uncertainty or econometric tools
- Emission trading systems
- Decarbonization
- Economic growth and environmental degradation
- Economics of exhaustible and renewable resources
- Environmental policies, strategies, and technology innovation
- Applications of game theory in environmental economics
- Firms' environmental performance
- Policy scenarios in micro and macro level under uncertainty

Deadline for manuscript
submissions:

31 May 2024

Both theoretical and empirical studies are welcome.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
