Challenges and Opportunities in Net-Zero Building Energy Efficiency Technologies

Guest Editor:

Prof. Dr. Tapas Mallick

Environment and Sustainability
Institute, University of Exeter,
Penryn, Cornwall TR10 9FE, UK

Deadline for manuscript
submissions:

closed (25 March 2024)

Message from the Guest Editor

This Special Issue aims to collect innovative solutions reported to date in any field of net-zero building energy aspects. Various electricity generation technologies considered suitable for building application, energy storage, artificially controlled user behaviour and smart building energy management systems are considered for the contribution to net-zero within the building sector.

We look forward to receiving your contributions.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
