Power Systems Connectivity and Resiliency: Modeling, Simulation and Analysis

Guest Editor:

Dr. Horia Andrei
Department of Doctoral School,
University Valahia of Targoviste,
13 Aleea Sinaia, 130004
Targoviste, Dambovita, Romania

Deadline for manuscript submissions:
closed (28 February 2022)

Message from the Guest Editor

It will be very useful for power systems (PS) researchers, academics, engineers and PhD students to prepare and publish their scientific contributions, and it will also benefit the journal's readers.

Topics of interest for publication include, but are not limited to:

- Power system modeling, simulation and analysis;
- Modeling and optimization of power systems operations;
- Applications of ICT, IoT and/or AI for power systems;
- Modeling, simulation and design of resilient sensors networks;
- Continuity of electricity supply, reliability and resilience—modeling and analysis;
- Modelling, simulation and analysis of resiliency for microgrids;
- Power system monitoring, protection and control;
- Resilience assessment of power systems with distribution generation;
- Connectivity technologies in the electric power industry;
- Power system risk and resiliency dependency

Special Issue

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
