634050 Tomsk, Russia

**Dr. Manoj Khandelwal**

Institute of Innovation, Science  
and Sustainability, Federation  
University Australia, Ballarat, VIC  
3350, Australia

### Message from the Collection Editors

Dear Colleagues,

Every year, coal energy receives new impetus for development around the world, and the availability of solid fuels plays a decisive role. The key problems of coal energy include high concentrations of anthropogenic emissions during transportation and combustion and low efficiency of power plants. This Topical Collection invites papers with new scientific results in the field of improving the environmental indicators of mining, transport, processing and combustion of coal. Each of the stages of work with solid fuels are extremely important in terms of environmental indicators.

Prof. Dr. Pavel A. Strizhak

Dr. Manoj Khandelwal

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
