an Open Access Journal by MDPI

Modeling and Simulation of Power Systems and Power Electronics

Guest Editors:

Prof. Dr. James Cale

Systems and Electrical and
Computer Engineering
Departments, Colorado State
University, Fort Collins, CO 80523,
USA

Prof. Dr. Reinaldo Tonkoski

Department of Electrical
Engineering and Computer
Science, South Dakota State
University, Brookings, SD 57007,
USA

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

This Special Issue invites submissions that describe new or advanced modeling techniques for the analysis of power systems and power electronic converters. Relevant themes include (but are not constrained to): new numerical or modeling techniques; approaches for modeling and assessment of power quality; modeling or characterization of power devices, including electrical machinery, converters or transformers; modeling and simulation of new electrical protection approaches; prediction, analysis and control of power devices; interactions and impacts of distributed energy on the power grid; microgrids.

- power systems modeling
- power electronics modeling
- distributed energy generation
- power quality
- power system protection
- microgrids

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
