Message from the Collection Editors

Dear Colleagues,

This Special Issue covers the state of the art of the following renewable energy and energy storage systems topics: solar energy, wind energy, biomass and bioenergy, hydro power, tidal and wave energy, geothermal energy, mechanical energy storage systems, electrochemical storage systems, thermal storage systems, air-compressed storage systems, and all related fields.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
