Italy

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is that of collecting research articles related to innovative architectures and approaches for SCADA and energy management systems in the field of electric power systems. Contributions are welcome both from an ICT and from a power system integration point of view highlighting how such devices should adapt to ease the development of microgrids, smart grids, smart power systems, and smart mobility in the view of a deeper integration of these various aspects of the energy power supply and management. Prof. Dr. Renato Procopio
Prof. Dr. Andrea Bonfiglio

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
