Alto Douro, 5000-801 Vila Real,  
Portugal

Deadline for manuscript  
submissions:  
**closed (30 August 2022)**

### Message from the Guest Editors

Currently, climate change poses one of the biggest threats to global development. Consequently, it is urgent to avoid environmental damage through the adoption of innovative sources of sustainable development, taking advantage of emerging and environmentally friendly technologies and funding opportunities, that allow building up a low carbon economy and a climate-resilient society.

Therefore, contributions are expected to cover a wide range of topics including the following: applications explicitly using methods from finance, such as portfolio theory, in the assessment of all sorts of environmental investment problems and energy investment decisions; updated reviews of studies using methods from finance that address energy and environmental investment options with a discussion of the major challenges and the suggestion of possible ways to overcome the problems involved. Contributions reporting the application of other mathematical programming and econometric tools to real-world case studies are also appreciated.

Prof. Dr. Carla Oliveira Henriques

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
