Deadline for manuscript
submissions:

closed (15 May 2014)

Message from the Guest Editor

Dear Colleagues,

The diminishing supply of conventional energy reserves and the growing environmental concerns have made renewable energy an attractive source for the future. Thus this Special Issue would also address the current and future issues of Renewable Energy in agricultural sectors. We wish to invite researchers in the area of Renewable Energy for Agriculture to submit their contribution to our Special Issue of Renewable Energy for Agricultural sectors. We are interested in articles related to renewable energy resources (solar, wind, biomass, hydraulic, algae, water, hydrogen), bioenergy from agriculture, biomass production and energy recovery in agriculture. Energy is the main input of the agricultural industry and technology.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
